## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see page 8, line 15 to page 11, line 2, filed September 5, 2006, with respect to rejection under 35 U.S.C. 102(b) and 103(a) have been fully considered and are persuasive. The rejection of claims 1-9 and 15-20 has been withdrawn.

### ***Claim Objections***

2. Claims 2-7, 9, 11-12, 14 and 17 are objected to because of the following informalities:

In claims 2-3, 5, 7, 9, 11-12, 14 and 17 (line 1), "including" should be "further comprising".

In claim 3, lines 2 and 5, "by at least:" and "includes at least:" should be "by:" and "includes:", respectively.

In claim 4, line 2, "receiver" should be "receiver of the mobile terminal".

In claim 6, lines 1 and 2, "including" and "based" should be "wherein" and "is based", respectively.

In claim 14, line 3, "interface" should be "interface of the mobile terminal".

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 13-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 is vague and indefinite because it is unclear which circuit(s) or device(s) performs the receiving and synchronizing steps?

The dependent claim 14 is rejected to because it depends upon claim 13.

Claim 15 is vague and indefinite because the controller, the copyright processor, and the memory all fail to perform any function in connection with other claim elements. In other words, it is unclear what to do with the digital broadcast content broadcasted from the broadcast receiver? The mobile terminal edited digital broadcast content produced by the broadcast content editor" and the transmit information transmitted from the wireless transmitter?

In claim 15, the wireless transmitter lacks connection or cooperation with other claim element(s).

In claim 17, the user interface also lacks connection or cooperation with other claim element(s) of claim 15.

The dependent claims 16 and 18 rejected to because they depend upon claim 15.

Art Unit: 2611

Claim 19 is vague and indefinite because it is unclear which circuit(s) or device(s) performs the receiving step? And the converting and sending steps recited in claim 20?

In claim 19 (line 7) and claim 20 (line 2), it is unclear where is "the received digital broadcast content" derived from?

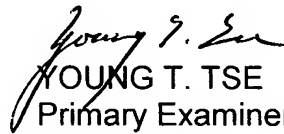

***Allowable Subject Matter***

5. Claims 1, 8 and 10 are allowed.
6. Claims 2-7, 9 and 11-12 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.
7. Claims 13-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
